

DATA SHEET

This hefty 190 gsm gloss coated paper is designed to produce near photo quality images on solvent inkjet printers. The smooth even coating will outperform the image quality of most competitive uncoated solvent papers. The enhanced whiteness, color gamut, and printability is a good choice when a traditional paper is needed over a vinyl product. The solvent gloss paper can be overlaminated with a pressure sensitive (cold) overlaminating film.

Basic Weight	189 gsm	Brightness	87
Caliper:	8.1 mil	Whiteness	96 (We)
Opacity	96%	Gloss	45 @ 60

<i>Feature</i>	<i>Advantage</i>	<i>Benefit</i>
Glossy coating	Simulate photo images	Higher color gamut, better printed image
Over laminate with pressure film	Replace aqueous applications	Better fade resistance , use on type of printer
8 mil thick media	Use with a frame or sign holder	One step sign or display graphic application

Optimal Storage Conditions:

Temperature 59°-86° F - Humidity 30% - 70% RH

Shelf Life:

One year stored at above conditions, unopened in original packaging
